"The creation of a thousand forests is in one acorn." -Ralph Waldo Emerson

ReStore has been a life-saver for us. As a green business, it is very important for us to use building materials that have the smallest impact on the environment as possible. When we expanded our business we tried ReStore before going to a large home improvement store. We bought beautiful cork flooring for 1/10 of the price! We bought a door, and even a light fixture. We saved money, recycled materials, stayed green, and helped Habitat for Humanity. It is a win-win situation for everyone!
